

Features of Infinity Series Stainless Faucets

- Solid Stainless Steel, so they **heavy** and are built to last as long as the granite
- On/Off handle is **forward motion only**, so there is no interference with backsplash.
- **New swivel top hose**
- **Lead-free** not just meet the code but truly lead-free.
- Faucets are sand cast stainless steel, so all **components match**. Many other brands faucet have more than one color tone.
- Excellent **color match** to the Infinity and Decora Series stainless steel sinks.
- Solid Stainless means **no finish to come off**, and minor scratches can be buffed and repaired.
- **Spring retraction system** so there is no weight to bang on plumbing or hang up on items stored under the sink.
- Popular styles
- **Quieter long-lasting vinyl hose.**
- **Soap dispenser with longer spout**, so it does not drip on granite or rundown sink.
- Parts are easy to replace if necessary.

Features of Infinity Series Stainless Steel Sinks

- Infinity Series sinks are drawn from **Certified 304 stainless steel** which is appliance grade steel that will **match appliances**. Many sinks are made of 301 steel which contains less chromium and less nickel, so the sinks are not as bright and the finish will turn dull quickly.
- Infinity Series sinks are **individually drawn and welded**, so all sides are equal. This process also makes the sink **heavier**, so it is quieter.
- The finishing process is **fully automated** for consistency.
- **Eco-Friendly bottom coating**
- Infinity Series sinks are **certified by an independent lab** to meet all major model codes. Many brands do not meet building codes.
- Infinity Series sinks have an **exclusive thermal pad** on the bottom.
- Infinity Series sinks have **sound reduction technology** from the automotive industry instead of smelly sound pads made from recycled tires.
- All sinks are labeled, and **ANO stands behind the sinks** with a lifetime warranty on the finish.
